panoramic®  
h-line

# 3 Pre-assembled modules

Modular exhibits

# 4 Concept

Modular exhibits

- Panoramic h-line is a trade show display system which allows you to easily create a custom exhibit using pre-assembled modules.
- With its full surface area completely dedicated to the graphic image, Panoramic h-line creates an unparalleled visual impact while also providing a full assortment of useful functionalities.
- Panoramic h-line is a perfect solution for those that would like an exhibit that is both modular and flexible for purchase or rental.

# 5 Benefits

## Five reasons to choose panoramic h-line

- Showcase your image  
Put the graphic image front and center! No visible aluminum profile means your message is even more effective and your exhibit carries **a true mark of quality.**
- Endless modularity  
All module types can be connected to one another - no restrictions! **Rest assured that you can use your exhibit in every space,** even those you have yet to consider. Panoramic h-line is a completely scalable solution that grows along with your company.
- Focus on the essentials!  
Each module has been designed to provide its own unique functionality (communicate, display, design, spread your message, store, and welcome customers). **You can pre-fit certain modules by adding optional kits for even more functionality.**
- Be creative!  
Distinguish your company by creating your own custom graphic or use our database of colors and patterns specifically chosen for Panoramic h-line. **Put a part of yourself in your exhibit!**
- CLEVER & SIMPLE  
Panoramic h-line requires **zero technical expertise** and is set-up without the use of tools. Set-up up the exhibit yourself, or with our assistance. Standard modules do not exceed a weight of 19 lbs. Set-up for a 20' x 10' exhibit takes less than 1 hour for 1 person.

# 6 Concept

3 modules sizes:  
9.5", 19" and 38"

Every panel is delivered with pre-installed graphics, just connect them!

# 7

All module types can be connected to one another

Result: no visible aluminum profile!

# 8 Graphics

- Dye-sublimated fabric graphics
- Features a silicone edge (SEG) attachment system, in which silicone is sewn into the edge of the graphic and is then inserted into the groove of the Panoramic profile.
- Extremely precise graphic dimensions ensure perfect graphic tension upon installation
- The right fabric for each use: opaque Panopac fabric for maximum visual impact and optimal color rendering, light-diffusing fabric for lightboxes and backlit frames
- Easy to transport and ship

Grommets provide optimal and durable cable management

# 9 Process

Design and quote your exhibit in 4 easy steps and 30 minutes or less!

3D Studio

Welcome to the panoramic<sup>®</sup>  
h-line

## Creating an exhibit has never been so simple

**STEP 01**  **EXHIBIT SIZE**  
To start, choose the size and type of booth that you have rented: length, width, and number of open sides.

**MODULE CHOICE**  
At a show, every sq ft counts!  
Welcome, display, store, spread your message...  
Choose and position modules according to the functionalities you need.

**STEP 02** 

**STEP 03**  **GRAPHIC WRAPPING**  
The most important thing at a show is to create a strong impact.  
Upload your own creations or be inspired by our selection of colors, patterns, and material effects. Creativity has no limits!

**FURNITURE/FINISHING**  
The success of your exhibit is in the details!  
To finish of the look, we offer a line of furniture, lighting options and additional finishing touches.

**STEP 04** 

 **RENDERING**

 **ESTIMATE**

**STEP 01**  **BOOTH SIZE**

I DEFINE MY SPACE

I input the characteristics of my space: length, width, number of open sides.

[WWW](#) [Let's go!](#)

**MODULE CHOICE**  **STEP 02**

I STRUCTURE MY SPACE

I build my booth by choosing the modules that meet my needs (close an angle, erect a wall, spread my message...)  
To save display production, welcome clients.  
All modules connect to one another.

Please visit available on the website.

[WWW](#) [Let's go!](#)

**STEP 03**  **GRAPHIC WRAPPING**

I SELECT MY GRAPHICS

I bring my vision: I choose between my own personalized graphics and a database of colors, patterns, textures, or material effects.  
Right click and then click on the preselected graphic to wrap each booth element.

Please visit available on the website.

[WWW](#) [Let's go!](#)

**FINISHINGS / FURNITURE**  **STEP 04**

I FINALIZE MY BOOTH

My booth is almost complete.  
We recommend adding finishing touches on each part of the booth and every fine detail.  
To add more functionalities to your booth: additional chairs and light are available to order.  
A database of accessories, furniture and plans for rendering purposes only, not for sale is available to you.

Please visit available on the website.

Signature LED 20W spotlight with  
transformer and bag

---

With its sleek, contemporary lines, it integrates flawlessly into your booth designs.

It lights the panel powerfully and uniformly thanks to its elongated 23.62" form, as well as its specially designed optics.
